

YOU CAN BE FREE

**EQUITY: THE
PROTECTION FROM
STATUTE THAT WAS
ALWAYS THERE**

For some, the Not A Person platform can appear subversive or anti-government. From that can come a moral dilemma and thoughts that it may feel "naughty" to even think.

If I take action like this site suggests, I will surely be arrested or worse. It can't be true that the law protects us all from the government itself, and that the government system is the largest form of organised crime ever conceived. Surely what the government says it is, and the authority it says it has, is lawful legitimate? How could almost everyone on the planet have been deceived? Is that even possible?

The answer to that is that when the system controls schools, media and the basis of social reality, it can condition you and everyone else to believe whatever it wants them to. And it did!

This article explains the real, verifiable law and equity that can be used to effectively revert back to the "free of statute" position that you were born into but have never understood. Every rule, tax and penalty you have ever paid was essentially based on fraud and presumption. It targeted the legal person, not you.

YOU ARE NOT A LEGAL PERSON!

This article explains the Equity protections that have always been there to prevent exactly the deception that has been committed on all of us by the statute system, or more accurately by those who created and control it.

Read it all, look it up and see how we use it ourselves to reclaim our freedom. There really is no moral dilemma, just a deception that has been perpetrated on a global population for control and extraction. This is the moment you realise that it can all be exited lawfully, and that those who created it were never included in it themselves. Equity holds the keys to your freedom, understanding the basics starts here.
